

Stansted Model Flying Club NEWS
Our next meeting will be at Ugley Village hall
On November 2nd 2015 at 8pm.
We will have a light hearted Quiz organised by
Laurie. and Linda will bring her simulator.

Our last meeting was poorly attended, but at least Laurie came with his huge Handley Page of 12 ft span weighing in at 14 lbs, a most impressive model, which just about managed a loop, which kept us all enthralled as it sort of fell off the top! Steve brought along his "Tiggy" which it seems can fly in gale like conditions! Unfortunately I ventured forth with the Riot, and got too far away down wind! Fortunately Martin was at hand and saved the day for me, thank you! (but I'm getting better- I hope).

Dane was at the field recently with a rather nice Yak 52, which unfortunately suffered a collapse of the front wheel, and curtailed his fun for a while. But undaunted he went home to get another model, there's enthusiasm for you!

Which brings us nicely to the subject of the continued existence of the club. We desperately need members to come forward to form a committee, to replace those who have served the club for so long, and need a break.

Let's face it, with no committee; there is no club, and nowhere to fly: Bill has been secretary for nine years, and definitely needs a break, as do others.

So, if you want somewhere to fly, listen to what is needed and please offer your services. Our next meeting would be an ideal time to ask what you can do.

Jobs to be done,

Secretary, Safety Officer, Treasurer, Membership, Chairman.

Cheers Dears

Mike
